GENERAL NEWS.

The railroad lines east of Chicago have raised wheat rates one cent per hundred since lake traffic shut down for the winter.

Jewelry and precious stones to the value of \$10,000, were stolen the night of December 5 from A. Lowe, a jeweler at Vancouver.

Los Angeles went republican at the late city election, turning down a democratic mayor who served six years, by 3000 majority.

Mayor McClellan and Comptroller Grout, of New York, have voted to move for a municipal fighting plant in that city.

The Oregon delegation in congress has agreed upon the appointment of Edward Hostetter as postmaster at The Dalles to succeed S. K. Patterson.

H. F. Barron, a pioneer and wealthy farmer of Jackson county, Oregon, was killed December 6 by falling from his wagon when a wheel came off. He was 77 years of age.

The striking cabmen, 1500 in number, of New York, have voted to return to work at \$2 per day and one day off in 12. They struck for \$2.25 per day and one day of rest in seven.

Amos Welty, a prosperous farmer near Hunter, O. T., shot and killed himself. His brother, Lewis, went to town for the undertaker and upon returning shot himself and is in a critical condition.

The Journal of the American Medical association states that in 1903 there were 415 cases of tetanus or lockjaw caused by Fourth of July artillery in the hands of children. This year there were but 105 cases, but 51 of them proved fatal.

NORTHWEST NEWS.

The Seattle police made 541 arrests during September, 615 during October and 551 during November.

Chub Dixon, at Kalama, Wash., has been sentenced to 20 years in the penitentiary for highway robbery.

Spokane expects 2000 of the 2500 teachers of Washington to attend the state association convention at that place December 28-30.

Dr. P. B. R. Miller, one of Seattle's best known physicians, and a resident of that city since 1882, died December 5 of cancer of the mouth.

Perry Harris and Kenneth Wiley, two little boys, were drowned in the lake at Harrison, Idaho, December 5. The bodies were recovered the 6th.

From points east and north of Wisconsin, Wash., the wheat rates to Detroit and Toledo are 58 1/2 cents per hundred weight and to Buffalo, 62 cents per hundred weight.

George W. Lauth, the slayer of Mrs. Leonora Jones, at Oregon City, has been sentenced to hang January 27. He shot the woman to death last September.

The University of Washington and the Athletic club of Seattle, played a strenuous and skillful game December 5, and it ended without a score on either side.

Mrs. F. H. Ribler suicided in Seattle December 4, by swallowing three ounces of carbolic acid. She was from Sulphur Springs, Texas, and the guest of friends.

Many of the shingle mills in the Northwest have closed down since the drop of \$1.25 for "stars," nevertheless several new mills are building and all the others are being overhauled for improvements.

There are but very few desirable vacant lots left in the residence portion of Pendleton. These we have just listed and the prices are very reasonable.

We have a new list of residences for sale. Come and see us, and look over our list.

We have anything that you want in country property.

E. T. WADE & SON,
Office E. O. Building.

IS FOR HERMISTON

LEWISTON MAN SAYS

IT HAS GREAT FUTURE.

Has Realized All the Benefits of Irrigation and Believes the Hermiston Country Is the Superior of the Vineland District—Deprecates the Use of Too Much Water in Irrigation, and Cites Vineland as an Example.

W. S. Skinner of Lewiston, Idaho, who is largely interested in the irrigation projects at the new town of Hermiston, near Maxwell, was in the city this morning on his way to Hermiston, where he will look over the project for a few days.

Mr. Skinner is enthusiastic over the prospects of irrigation in the Maxwell district. He is a firm believer that hope will grow profusely on the irrigated land of the Butter creek and Maxwell country, and that almost every other product of the temperate zone will grow to perfection.

He is satisfied to lay the foundation in Hermiston for a model irrigated district. He believes the climate, the conveniences to transportation, the kind of soil, all combine to make it one of the most productive and wealthy communities in the West in time. At Vineland, where land is now worth \$1000 per acre the raw land and the naked project was inferior in many ways to that at Maxwell or Hermiston, today, and yet Vineland has become the acme of irrigation perfection in the West. More produce is grown on an acre of land in the Vineland district than in any other locality in the entire West.

Mr. Skinner believes that the warm sandy soil of the Hermiston and Butter creek districts do not require as much water as is used upon them now. He is confident that crops and orchards can be produced with a great deal less water than is now applied even to the alfalfa fields of that section.

As people come to understand this, and will venture to reclaim land with a minimum amount of water, instead of requiring such enormous quantities, many other districts in the west can be settled and made to become productive communities. The idea of needing the amount of water that is used in Butter creek, seems to him to be out of date. In Vineland, one inch to five acres is considered sufficient to produce crops.

INVITED TO FOREST CONGRESS.

J. H. Gwinn Receives Circulars of Important Meetings in Washington, D. C.

Secretary James H. Gwinn, of the Oregon Woodgrowers' Association, has received an invitation to the American Forest Congress, to be held in Washington, D. C., January 2 and 3, 1905, for the discussion of all the practical phases of the forestry question.

Mr. Gwinn will not be able to attend the congress, but is deeply interested in the subjects to be discussed by the delegates. The congress will be composed of forestry experts, and practical stockmen and timbermen of the west in hopes of arriving at the most sensible and common sense way of setting aside the reserves to meet the public needs and at the same time accomplish the ultimate object of the forest reserve policy.

Among the vital subjects that will come before the association will be the following:

Relation of the public forest lands to irrigation; relation of the public forest lands to grazing; the lumber industry and forestry; importance of public forest lands to mining; forestry in relation to railroad supplies; national forest policy, and state forest policy.

Secretary James Wilson, of the department of agriculture, is president of the American Forest association, and the organization is composed of all the leading government officials, including the president of the United States, who will be an enthusiastic delegate to the congress.

The object of the government in the organization is to get at the truth about forests, independent of the stock and lumber interests, and the subject will be studied thoroughly by the agricultural and forestry departments of the government.

GRAIN IN DANGER.

J. B. Grubb Says Cold Springs Land Will Have to Be Reseeded in the Spring.

Unless the cold weather checks up and the sprouted grain in the Cold Spring district is given a chance to grow a little stronger, much of the wheat land in that district will have to be reseeded, is the opinion of J. B. Grubb, who is in the city from Holdman today.

Mr. Grubb states that a large acreage of wheat has been seeded recently, which is now just sprouting, and that this cold snap is very likely to kill the young plants, if it continues any longer. Some of the early sown grain is out of reach of the frost, and some of the last sown is not yet sprouted, but is lying in the ground, awaiting a warm rain to start it.

Mr. Grubb believes that a considerable area of wheat land in the Cold Spring district will be reseeded in the spring, to make sure of a better crop than the farmers believe will now come from the damaged fall sowing.

A Costly Mistake.

Blunders are sometimes very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for dyspepsia, dizziness, headache, liver or bowel troubles. They are gentle yet thorough. 25c at Tallman & Co's drug store.

Try a pair of our Bunker Hill school shoes. A doll free at Teutich's.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Sold by druggists, 75c. a box.
Take Hall's Family Pills for constipation.

Notice to Contractors.

Sealed proposals will be received at the office of the undersigned until Saturday, December 10, 5 p. m., for the erection and completion of a frame residence for S. S. Butler. A certified check for one hundred dollars to accompany each bid to be forfeited to the owner should the successful bidder fail to enter into bond within five days after he has been awarded the contract. Plans and specifications can be seen at the office of the architect, room 12, Judd building.

C. E. TROUTMAN,
Architect.

S. S. BUTLER, Owner.

University Glee Club.

The University of Oregon Glee Club, which makes an annual tour of the towns of the state, will be in Pendleton on the night of December 20. The club consists of about 20 members. College glees, solos, monologues, light comedy and acrobatic work make up the bill of the club.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Maduell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroys the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

A. C. Koeppen & Bros., special agents.

THE BEST IS THE CHEAPEST

Bear this in mind when you need poultry and stock supplies and ask for the International Poultry and Stock Food. Use Kow Kure for your cow troubles.
